

BLUE CORN

tortilla chips

Made with organically grown blue corn
and sesame seeds

Pure ingredients. Better taste.

Blue corn has more protein than white or yellow. But you probably won't notice that when you snack on your first one! What you will notice is a delicious, hearty chip that's full flavored and the perfect companion to a wide range of toppings. Completely organic and lightly dusted with salt, these fun chips will look great in a colorful bowl at your next party or are simply delicious enjoyed straight from the bag!

All Meijer Organics™ products are made with:

- No artificial ingredients
- Minimal processing
- No pesticides, antibiotics, or growth hormones
- Dedication to renewable farming practices

We're pleased to offer you and your family
this natural choice.
