

NOT AVAILABLE IN STORES!

by **Michael Franco**

This month, the 3D extravaganza, **TOY STORY 3** will be coming to Singapore's theatres. All your usual favourites will be here including Buzz, Woody, Barbie, the Potato Heads and Rex, but this time around, the toy box gets filled with even more weird, wonderful and wacky characters. Here, we introduce you to a few of our favourites. They'll all be available in your neighbourhood soon for the low, low (well, sort of) price of a movie ticket!

STRETCH

Rubbery, glittery and jiggly, Stretch is a smiley octopus that does well even out of the water. You'll have hours of fun tossing her high on a wall and watching her walk her way down. Plus, she's extremely flexible and can stand up to any stretching little hands can dish out!

CHATTER TELEPHONE

It's pure fun calling when the Chatter Telephone is around! This classic toy still can entertain for hours, not only with "calls" on the bright red phone, but by watching the eyes blink as you roll it along the carpet. Phones can do a lot of things today, but how many can wink?!

CHUNK

With a stony exterior but a sweet smile, Chunk is a strong ally to add to your toy collection. But don't let those sweet little eyes fool you, when it's time for business, just press the hidden head spike and his face changes from welcome to *watch out!* Batteries are not required.

TRIXIE

Go back to the days when dinosaurs ruled the earth. But don't worry, Trixie is a *friendly* Triceratops! One look at her gorgeous blue and purple body and you know you have nothing to fear. Help her gather plants which she can munch in her moveable mouth and she'll be your friend until the end of time!

LOT'S-O-HUGGIN' BEAR

Not only is this plush pink bear great to give hugs to, he's got a secret as well—he smells like strawberries! So he's a buddy that will delight all your senses and is sure to become your very best friend. You'll especially enjoy giving him a pat on his velvety purple nose.

The Story Of Toy Story 3

What's going to happen to all the toys as Andy heads off to college and leaves them behind? They wind up in day care! At first, it seems like a pretty good deal as they get to meet a lot of fellow toys—Barbie even gets to find her soul mate, Ken! But when the kids arrive with their rough and sticky fingers things get a little too touchy. The toys plot their escape and do whatever it takes to stay together, while at school, Andy begins to miss his old friends. Find out what happens as the story unfolds in dramatic, *comin'-atchya* 3D as **Toy Story 3** hits theatres on **June 17**. ●

MR. PRICKLEPANTS

Learn about the dress customs of our friends in far away lands with Mr. Pricklepants! His unusual outfit is called *lederhosen* and is worn on festival days by people in his homeland—Germany. Even though Mr. Pricklepants sounds like he'd be a scratchy fellow to be around, he's actually quite soft and you'll have a hard time keeping your hands out of his fuzzy hair!
